GenPPT is the AI presentation maker that actually researches your topic. Unlike generic AI slide generators, GenPPT uses advanced AI models to transform documents, notes, and ideas into polished presentations, in under a minute. Whether you're creating a business presentation, pitch deck, or educational slides, GenPPT goes beyond templates. The AI analyzes your content, extracts key insights, and structures them into clear, compelling slides that look like you spent hours on them. Students, founders, consultants, and educators use GenPPT to skip the busywork and create AI-generated presentations that actually land. No blank-slide paralysis. No endless formatting. Just fast, professional results. Website: <https://genppt.com/> Phone Number: +1 (302) 440-5414
